

# STUDENT PAGE - RIGHT PLACE RELAY

Name:

Think about what you have put in the garbage can recently (in the past day or week). Think about what you put in the recycling bin. What could you have recycled that you did not? Could you have reduced this waste or reused it somehow?

Sometimes the grownups in our home don't do such a great job recycling. How could you encourage the grownups you live with to recycle better?

Why is it important to think about where we dispose of our waste items?
